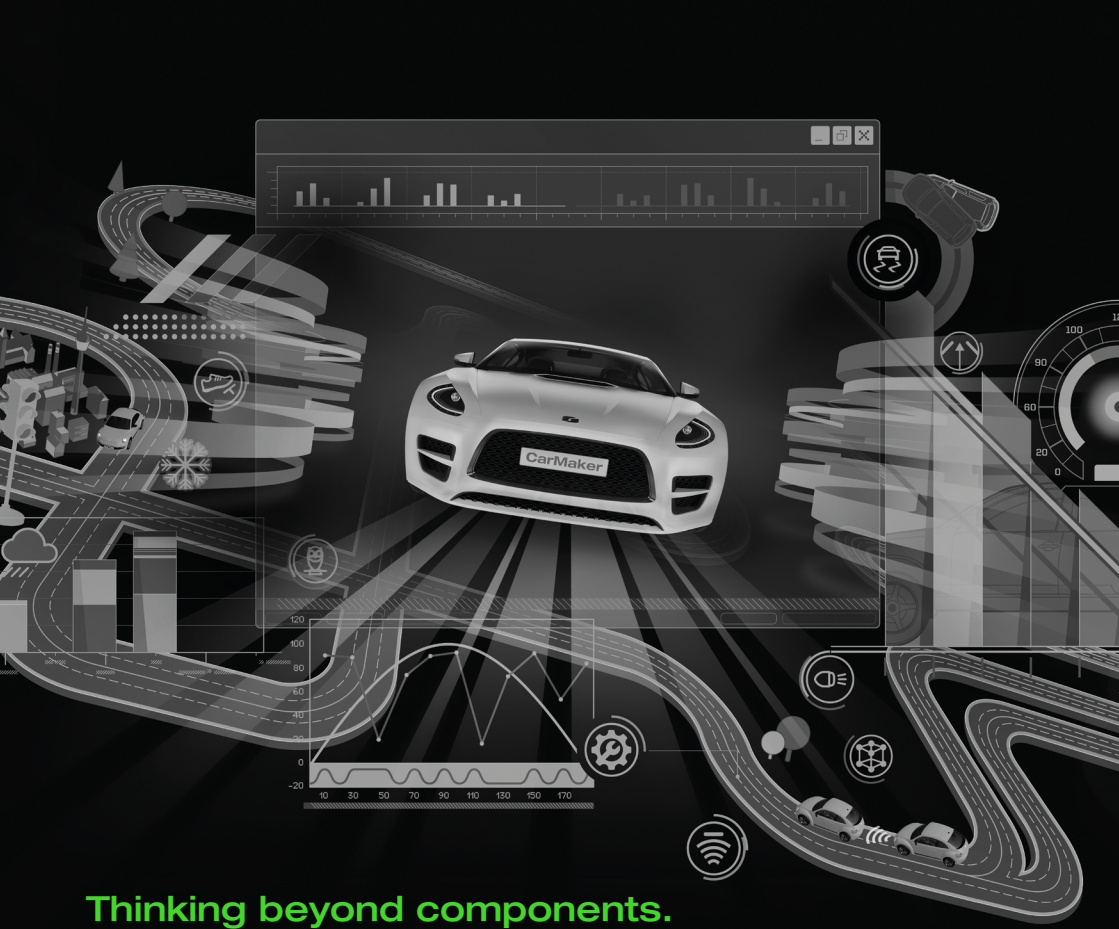
IPG AUTOMOTIVE

OPEN HOUSE

March 19, 2019

THE MEETING POINT FOR
THE VIRTUAL TEST DRIVING INDUSTRY



Thinking beyond components.
Testing and validating in scenarios.
Scaling without limit.

VIRTUALIZATION – THE TRANSFORMATION OF VEHICLE DEVELOPMENT

Stay up-to-date on virtual development methods. At Open House 2019, we present the latest additions to our product portfolio and the extended range of applications of the CarMaker product family. Let us show you how to efficiently test the vehicle of the future already today.

March 19, 2019
at darmstadtium
in Darmstadt, Germany

Highlights of the upcoming release of the CarMaker product family

German-language presentations, simultaneous interpretation into English

Presentations on the latest products and applications, trade exhibition with ample space for networking

Experts and other interested parties from the automotive and supplier industries as well as universities and research institutions
