

D203 – 6U CompactPCI®/PXI™ M-Module™ Carrier Board

Features

- M-Module™ slots
 - Four M-Module™ slots
 - Compliant with M-Module™ standard
 - Characteristics: A08, A24, D08, D16, D32
 - One pass-thru window per M-Module™
- Peripheral connections
 - Via front panel
 - Via CompactPCI® J4/J5
- CompactPCI® bus
 - Compliance with CompactPCI® specification 2.0 R2.1
 - Only one slot required on the 6U CompactPCI® bus
 - 2-bit/33-MHz PCI-to-M-Module™ bridge
 - FPGA-based
 - Compliant with PCI specification 2.2
 - V(I/O): +3,3V (+5V on request)
- Mechanical specifications
 - Dimensions: Conforming to CompactPCI® specification for 6U boards
 - Front panel: Aluminum with 2 handles, cut-outs for front connectors of 4 M-Modules™
